Mound City School Board discusses budget and projects

(KLZA)-- The Mound City Board of Education voted to amend the 2020-21 Budget so the budget revenues and expenditures were equal to actual revenues and expenditures when they met Tuesday.

The Board also approved the final 2020-21 budget as the preliminary budget for the 2021-22 school year.

Information was presented on proposed changes to the Elementary and Middle School Handbooks in an effort to condense. Changes to reflect consistency throughout the building concerning dress code and other areas have been proposed. The Board will take action on approving the Handbooks during their July meeting.

Superintendent Korey Miles updated the Board on the track expansion and new football field lighting projects. The new light poles are up and the work on the lights will be completed the last week of June.

Dirt is being moved to allow the track to be widened to eight lanes.
